

## CS 546 - Web Dev Class Project

e-Commerce platform that utilizes, scheduling, appointments, calendar, and confirmation

Project: Hair Salon booking app.

Book through the online web page or a QR code

Provides end user with

- (1) available dates - 2 weeks out booking at minimum
- (2) type of booking/each option with a set time that it takes
  - a. cut & color = 1 hour block
  - b. wash and cut = 45 mins
  - c. color only 30 mins
  - d. other - request time
- (3) form that contains
  - a. your name
  - b. your phone number
  - c. your email
  - d. any comments (max 120 charcters)
- (4) confirmation for appointment will go out and a response via text will be rec'd within 48/72 hours
- (5) end user (salonist) will confirm the appointment or reject AND it will get placed onto an Admin calendar

Landing Page will say would you like to make an appointment for (1) Hair Salon; (2) Nails

(1) Hair Salon will open form from a drop down

(2) Nail will say "coming soon"

# c'est la vie, book with me
